NEW SEED VARIETIES

The Lost Seed

CUCUMBER - BEIT ALPHA

(*Cucumis sativa*) Lebanese type, green cucumber up to 16cm long with excellent, sweet flavour & texture. Commonly harvested when young & small. 60 days. 40 seeds

CORN (POPCORN) - GLASS GEM

(*Zea mays*) Originating from a part-Cherokee Indian farmer named Carl Barnes from Oklahoma USA. An amazing multicoloured cob with brightly coloured kernels which look like glass! A 'flint' variety of corn which is used not for eating off the cob, but to make corn flour, popcorn or as a beautiful ornamental basket display in the home. 110-120 days. 40 seeds

TOMATO, CLIMBING - COSTOLUTO FIORENTINO

(*Lycopersicon esculentum*) Italian heirloom originating from Florence. Large, heavily lobed, slightly flattened, beefsteak type tomatoes up to 10cm across. Outstanding taste truly characteristic of Italian heirlooms. Vigorous plant up to 2m high - requires staking. Ideal for slicing and eating raw or making sauces or grilled. 75-80 days. 150 seeds

Once again, thank you for your continued support. Until next time, if we may be of assistance in any way, please do not hesitate to contact us.

Kerryn Martin (Proprietor / Grower)
