NEW SEED VARIETIES

The Lost Seed

CARROT - COSMIC PURPLE

(Daucus carota) Purple skinned root 15-18cm long with yellow-orange flesh and long, cylindrical shape. Early to mature. Holds its purple colour when cooked. Sweet, spicy flavour eaten raw or cooked. 250 seeds

ONION - AMPOSTA PURPLE

(Cucumis melo) Spanish heirloom first discovered in one of the gardens of Amposta. Also known as 'Red Amposta', 'Bronze D'Amposta' and 'Morada de Amposta'. Medium sized red / purple skinned bulbs with dense, purple / white flesh. Mild, sweet flavour. Great for use raw in salads due to its mild flavour or cooked. Intermediate day variety requiring 12-24 hours of daylight to form bulbs. Stores well. 80-85 days. 180 seeds

ONION - TROPEA RED

(Daucus carota) Italian heirloom. Medium to large, long, cylindrical, red bulbs. Mild, sweet flavour. Rich in nutrients containing quercetin, the flavonoid responsible for the red colour which is a valuable antioxidant for the immune system. Ideal for use in salads due to its mild flavour, grilled or cooked dishes. Stores well. 250 seeds

PUMPKIN - RED KURI

(Cucurbita maxima) Japanese heirloom also known as 'Orange Kokkaido', 'Uchiki Kuri' or 'Baby Red Hubbard'. Brilliant red-orange, tear-drop shaped fruit to 5kg with golden, smooth, dry, sweet flesh similar to the taste of chestnuts. Easy to peel. Vine. High yields even in cool areas - produces well right up to the first frost. Stores well. 92-100 days. 15 seeds

Once again, thank you for your continued support. Until next time, if we may be of assistance in any way, please do not hesitate to contact us.
